

# Slide Panel System 30 Rounded

**KURAGE**<sup>®</sup>  
acoustic design solutions

Slide Panel is a slidable and flexible system.

Each panel is suspended in two wheels in a ceiling fitted sliding system with separate guide rails.

Each element runs in its own separate guide rail and is thus served individually.

The system has a flexible mounting height.

The cover has elastics sewn on, ensuring a constant tightening of the fabric.

Cover is detachable and can be dry-cleaned.

Possibility for printed as well as plain textiles.

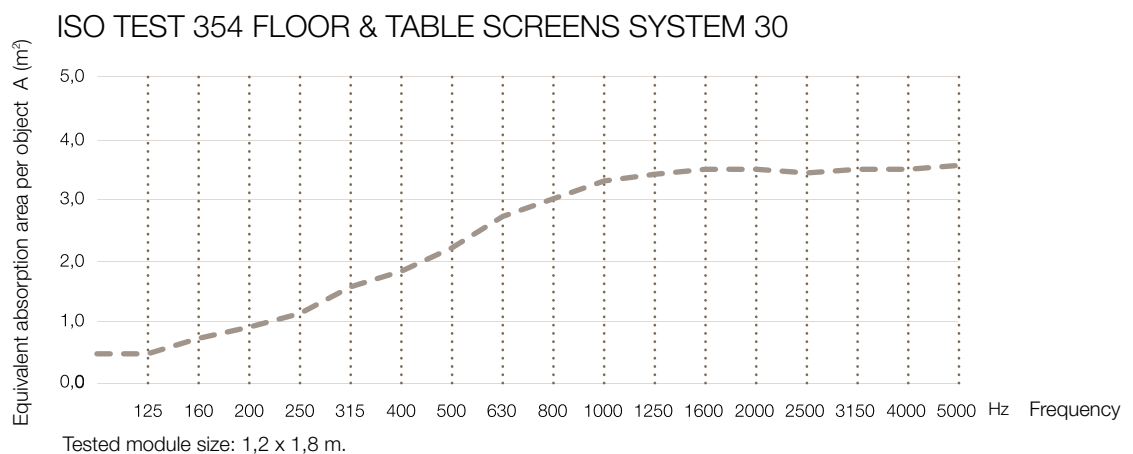

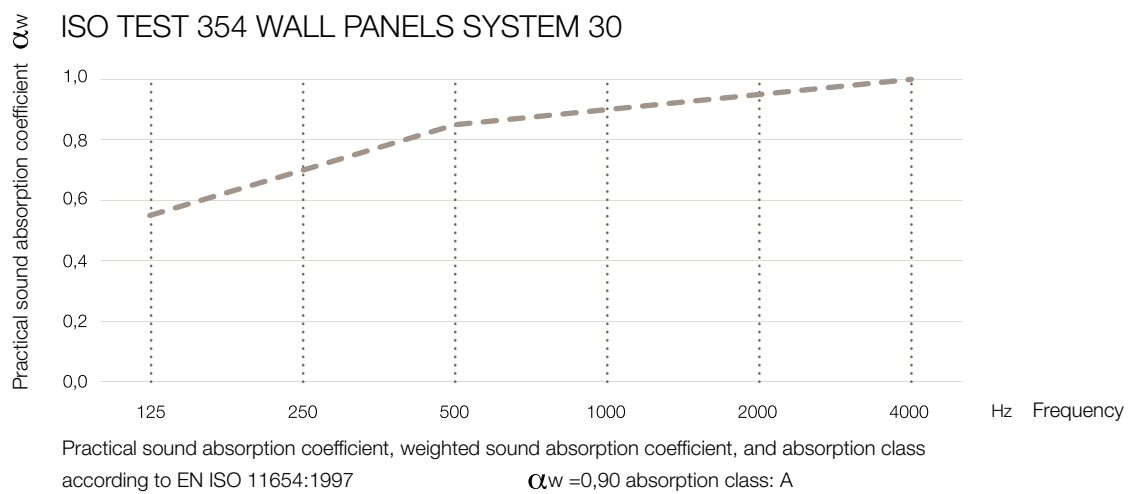

Visible frame of extruded aluminium.

Acoustic core of stone wool/mineral wool made from natural minerals.

In addition to standard dimensions we also supply special dimensions.

Thickness: 27 mm.
