

Slide Panel System 30 Rounded

KURAGE[®]
acoustic design solutions

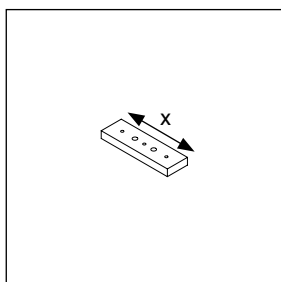

Slide Panel is a slidable and flexible system.
Each panel is suspended in two wheels in a ceiling fitted sliding system with separate guide rails.
Each element runs in its own separate guide rail and is thus served individually.
The system has a flexible mounting height.
The cover has elastics sewn on, ensuring a constant tightening of the fabric.
Cover is detachable and can be dry-cleaned.
Possibility for printed as well as plain textiles.
Visible frame of extruded aluminium.
Acoustic core of stone wool/mineral wool made from natural minerals.
In addition to standard dimensions we also supply special dimensions.
Thickness: 27 mm.
