KURAGE POUFFES – SITTING ON THE ESSENCE OF SUSTAINABLE DESIGN

When designing minimalist products with low environmental impact, we don't just kick our feet up and let others do the work. But with our unique pouffe collection, now you can. Pick the shape and cover that matches your style. Go for a sleek cylinder or one of the two bold square models, and choose from three thoughtfully crafted and durable fabrics:

- Woolen Melange, made from 100% wool
- Dotty recycled wool, made from 50% high-end remnants (such as old wool sweaters)
- Blue Collection recycled denim, where each meter of fabric is crafted from a single pair of jeans

DEDICATION IN EVERY STITCH

Each pouffe is meticulously handcrafted at our own facilities. The cover is made by dedicated craftsmen like the Italian family who weaves our Dotty recycled fabric. This means you can relax, knowing you're making a choice that values design, quality and sustainability.

FLEXIBLE AND VERSATILE DESIGN

Our pouffes are ideal for sitting and serve as versatile accessories for any room. Their simple, clean design allows you to indulge in the rich texture and warmth of the chosen textile. You can change the cover, and this allows for easy cleaning and the freedom to style your pouffe according to your evolving aesthetic preferences. Choose your texture, pick your colour, and transform your space with the KURAGE pouffes.

COVER

DOTTY RECYCLED WOOL

A blend of 75% Wool, 20% Polyamide, and 5% Other fibers, with 50% of the wool being mainly post-consumer. This option is available in 18 vibrant colours, allowing for personalisation and style flexibility.

WOOLEN MELANGE

Made from 100% Wool, this option offers a different aesthetic with a selection of 10 colours. It provides a monochromatic elegance and a softer texture, ensuring that every pouffe can be tailored to the individuality of your space.

BLUE COLLECTION RECYCLED JEANS

Crafted from up to 72% post-consumer recycled cotton and a small amount of hemp in our striped styles (up to 11%), these textiles combine sustainability with casual elegance. Available in Skinny, Bootcut, Flared, and Baggy styles, each offers a unique take on classic denim hues, perfect for adding a chic, versatile touch to any space.

UPHOLSTERY

Our pouffes feature high-resilience PU foam for the seat, offering lasting comfort and support, while the sides are cushioned with a softer PU foam. This combination ensures each pouffe is both inviting and durable, maintaining its shape and comfort over time.

CONSTRUCTION

Built on a foundation of solid OSB plates, reinforced with pine wood beams, and encased in hardboard, our pouffes are designed for durability and stability. This robust construction guarantees a piece that withstands the test of time, blending functionality with enduring style.

MAINTENANCE

The cover is removable for easy cleaning. It can be dry cleaned or gently wiped with a damp cloth without the use of cleaning agents, ensuring your pouf remains in pristine condition.
